DESIGNERS

BUILDERS

It is needless to spend good money on a poorly-planned house, when a little touch of art will make it a home and a joy.

Let us help perfect that plan you have always dreamed about.

Del Monte Hawaiian Pineapple

Nowhere else in the world does pineapple attain such size and lusciousness as in the Hawaiian Islands. DEL MONTE Hawaiian Pineapple is selected from the choicest yield—those largest in size and most delicious in taste. Canned when they are fully matured, they come to you with all the sweetness and flavor of the fresh pine.

DEL MONTE Hawaiian Pineapple is packed in three ways—sliced, grated or crushed. In these various forms it can be used in hundreds of recipes for desserts, salads or ice.

Be sure to look for the red DEL MONTE shield on every can. It is not merely a label but a guarantee of goodness, purity and quality, covering a complete line of canned fruits, vegetables, jams, preserves, catsup, mince, prunes and many other varieties.

ONE OF ARDMORE'S SHOW PLACES

Photos by FONVILLE, the COMMERCIAL PHOTOGRAPHER. Interior and exterior photos. Anything—Anytime—Anywhere. Phone 437.

HOME OF J. S. MULLEN, C STREET, SOUTHWEST.

During the past few weeks more than the usual number of strangers have visited Ardmore, attracted by the various amusements or to attend the conventions and meetings that are held at frequent intervals. These visitors always evince a distinct interest in the homes of the city, taking long walks or rides through the residence districts.

Because of its location in close proximity to the business district and the fact that it embraces features of more than ordinary interest, there is no place in the city which attracts more attention than the home of Mr. and Mrs. J. S. Mullen, especially in the evening when it is brilliantly illuminated.

Ardmore is all the time building homes of distinct character and the visitors of the coming year who will come by the thousand to attend the various state-conventions will gain a conception of Ardmore as a home city which they will take home with them, adding distinctly to the prestige of the city.

Costs Increase

Today it costs more to build than it did a year ago. Building material is higher and your building is worth more. Aren't you under-insured?
